SUMMARY

Senior Software Engineer with 8+ years of experience building scalable, high-performance enterprise applications using .NET and Angular. Proven track record in modernizing legacy systems, designing clean architectures, and leading cross-functional teams. Experienced in backend and full-stack development, with a strong focus on system design, performance optimization, and maintainability. Passionate about delivering reliable software solutions and driving technical excellence in fast-paced environments.

EXPERIENCE

- **Eyvan Group** Tehran, Iran
Technical Team Lead May 2025 – Present
 - **Team Leadership:** Led a team of 5 software engineers by planning, assigning, and tracking tasks while ensuring effective collaboration and timely delivery.
 - **Technical Review & Development:** Reviewed and integrated backend and frontend code changes, maintaining code quality and contributing to .NET and Next.js development.
 - **DevOps & Architecture:** Worked with Dockerized services and GitLab CI/CD pipelines to improve deployment and development workflows.
 - **AI-Assisted Development:** Leveraged AI-powered development tools such as Cursor AI to improve coding efficiency, code review, and problem-solving workflows.
- **Golrang System** Tehran, Iran
Senior Full-Stack Developer (.NET & Angular) Mar 2024 – May 2025
 - **Legacy ERP Modernization:** Modernized a large-scale ERP system using .NET 8 and Angular, improving structure, scalability, and maintainability.
 - **SP to LINQ Refactoring:** Refactored legacy SQL logic into LINQ and applied Clean Architecture to simplify codebase and reduce technical debt.
 - **Frontend Development:** Built responsive UI components and improved overall user experience and performance.
 - **Team Collaboration:** Collaborated within Agile teams to deliver key business modules such as Inventory.
- **Radin Technology** Tehran, Iran
Senior Software Engineer & Team Lead Jan 2021 – Mar 2024
 - **Hardware Wallet Development:** Led a team of 4 engineers to build a non-custodial cryptocurrency hardware wallet using Java Card and secure smart cards.
 - **Blockchain Integration:** Implemented BIP32-based key generation and integrated Bitcoin and Ethereum networks for secure transaction signing.
 - **Backend Architecture:** Designed and developed backend services using NestJS and ASP.NET for transaction processing and analytics.
 - **Scalability Improvements:** Improved performance and scalability using caching strategies and optimized data handling.
- **Hasin Group** Tehran, Iran
Full-Stack Developer (.NET & Angular) Jan 2016 – Jan 2021
 - **ATM Monitoring Platform:** Developed a real-time ATM monitoring and analytics system using ASP.NET Core.
 - **Modular Architecture:** Designed a modular system structure to improve maintainability and scalability.
 - **Performance Optimization:** Improved system performance using Redis caching and optimized database interactions.

PROGRAMMING SKILLS

- **Technologies:** .NET 8.0, Entity Framework Core, Angular, Git, TFS, Linux
- **Programming Languages:** C#, JavaScript

EDUCATION

- **University of Tehran** Tehran, Iran
M.Sc., Computer Engineering *Sep. 2013 – Jan. 2016*
- **Iran University of Science and Technology** Tehran, Iran
B.A., Computer Engineering *Sep. 2007 – Aug. 2011*
